Bronco Lapcevich told us a little about himself— the war had started, in 11th grade the war was over, he joined the Navy— asked if he wanted on a carrier or destroyer, he said a carrier so they put him on the destroyer. Went out on 2 man subs, went to Pacific where there were atomic bombs, also went to Australia. After he got out there was 6 of them and they bought bikes, Bronco's was an Indian with top speed of 55 MPH. Took him 6 days to drive from San Diego to home.
